### Introductory

THE PUBLISHERS take pleasure in presenting herewith the Ninth Annual Edition of Henderson's Regina Directory. A work of this kind to be valuable, must, in all respects, be thoroughly reliable and up-to-date; fully conscious of these essentials, the publishers have taken every precaution to secure the accuracy of the information.

The Edition embraces the area of GREATER REGINA, comprising the territory of the city proper and all adjoining subdivisions, suburbs and environs.

Attention is directed to the Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The Advertising Department, together with the Classified Directory, contains an alphabetical list of all articles made and sold in Regina and virtually makes it a city catalogue and forms a most complete buyer's guide.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 2159 Smith Street is wanted: refer to street section Smith Street—glance down to 2159, then to the nearest intersection to 2159. It will be found that this number is on the east side of the street, five houses north of 14th Avenue, between 13th and 14th Avenues.

The removals and changes in the information this year have greatly exceeded any the publishers have previously had to contend with in the compilation of the Regina Directory, and have, of necessity, entailed an enormous amount of extra work.

Today the whole world is engulfed in a mighty vortex of tribulation and strife, and Canada is nobly and loyally doing her part to uphold the cause of justice and protection of the weak. Thousands of her citizens have already bravely shed their blood at the front, whilst tens of thousands more are impatiently awaiting their turn in the trenches. The departure of so many with the Canadian contingents, together with the immense numbers of British reserves and reserves of all the Allies, who have left to rejoin the Colors, have been a deep drain upon Regina, and it is therefore only natural that the Directory would reflect their loss and be smaller in consequence.

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Regina have always shown in their publications.

HENDERSON DIRECTORIES, LIMITED.

November, 1916.

# City of Regina

Regina is situated in lat. 50.30, long. 105, 357 miles west of Winnipeg and 1,125 miles east of Vancouver, and is served by the three transcontinental lines, viz., the Canadian Pacific, the Canadian Northern and the Grand Trunk Pacific railways.

Regina was incorporated as a city on June 19, 1903, and is now the capital and seat of government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has well been said that there are no parliament buildings more dignified or better adapted to the needs of legislative work than those

of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, and was erected by Peter Lyall & Sons, of Montreal, at a cost to date of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the departmental offices occupied in the fall of 1910. The length of the building is about 543 feet, and the height of the dom approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a vote of the entire city, and commencing with the Municipal Election of December, 1914, the Aldermen have also been elected from the city at large. Prior to that time they were elected annually from the five wards of the city, two representatives to each ward. The bylaw making this change was ratified by the electors on the 10th of August, 1914, and provided for the abolition of the ward system and for the reversion to the system of the election of Aldermen by a general vote of the electors.

Regina is undoubtedly the financial centre of the province, and its development in this respect is very remarkable. Fourteen of the leading Canadian banks now have branches in the city, several having two, the majority of them having erected substantial and elaborate offices of their own.

Practically every loaning institution of importance in Canada has an office in the city, many of them occupying their own building.

The Bank Clearing House Association was established in 1909 and the clearings for 1911 were \$73,032,088, an increase of 46 per cent. over 1910, placing Regina as the second city in the Dominion in this respect, Edmonton being first with an increase of 70 per cent. The clearings for 1912 were \$115,727,648, showing an increase over 1911 of \$42,695,560. The clearings for 1913 were \$132,087,457, showing an increase of \$16,359,809 over those of 1912, and being the largest turnover the Clearing House has ever recorded. The clearings for 1914 were \$98,205,541.65, and notwithstanding the unprecedented

financial conditions created by the war the clearings for 1915 were \$87,122,611.00.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta.

Regina is justly entitled to be termed one of the best served railway cities in Western Canada. Twelve lines of railway radiate in all directions from the city, and the C.P.R., C.N.R. and G.T.P. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway will have direct communication between Regina, Minneapolis, St. Paul and other southern cities over the G.T.P. Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines which, when completed, will make a total of twenty-two railway lines radiating in all directions from Regina. A new union depot for the C.P.R. and C.N.R., thoroughly modern and up-to-date in every particular, has been erected and is now in use, but the C.N.R. has acquired considerable property in the east end of the city, and it would seem probable that this company will erect a passenger depot of its own in the near future.

The G.T.P. plans under way include the erection of a station, a magnificent hotel, power house, laundry, train sheds and underground tunnel, to cost in all approximately \$2,000,000. The foundation and steel work for the hotel has been started. This investment, made by a company such as the G.T.P., speaks volumes for its faith in the city's future.

Owing to its geographical situation in the heart of the grain growing district of Western Canada and with unequalled railway facilities, Regina is one of the largest distributing points for agricultural implements in the world, and practically every Canadian and American implement manufacturing firm of any importance has its agency in the city. The advantages for the distribution of other lines of goods are on a par with those for agricultural implements, and Regina has some 36 manufacturing concerns, some 114 wholesale and over 360 retail houses.

The city is a firm believer in municipal ownership and owns its street railway, of which it has some 30 miles constructed within the city limits; light and power plant, supplying cheap light and power; and water system, the water being obtained from springs distant some eight miles. With regard to the two last mentioned utilities, the city has planned the expansion of the present systems so that, when complete, they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the city.

In connection with cheap power the city in 1914 entered into an agreement with Messrs. Coste & McAuley for the supply of natural gas. The city intends to arrange for the distribution of the gas within its limits, retaining full control of the utility as it has done with its other utilities.

During 1914 the city extended its municipal ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the livestock raised in the province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the city, however, is the provision of an up-to-date stock yard to furnish a good market for all stock raised in the country tributary to the city.

The City's Public Market, under the control of the Local Council of Women, contributes in no small measure to the welfare of the residents of Regina and to the people in the districts surrounding the city, in providing an open market for the sale and purchase of all kinds of supplies at first cost.

As a residential centre Regina offers every inducement to the homeseeker. In this respect it has been referred to as "the City of Beautiful Homes."

From the educational and social points of view, the city also offers every advantage. With a population of about 40,000, the city has the Regina College, St. Chad's College and the Provincial Government Normal School, all carried out in Gothic treatment, and a Collegiate Institute of classic design. A magnificent college is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect college buildings at a cost of about \$1.000,000, making provision for the education of both sexes, also a hospital and other buildings in connection with same The Roman Catholics have also expressed their intention of erecting a substantial college. From these points it will be seen that the city, although not fortunate enough to possess the Provincial University, may claim to be the educational centre of the province. In addition to the above, there are some 14 public and separate schools, 29 churches, Y.M.C.A. and Y.W.C.A.; two public hospitals and several private nursing homes; a public library with two branches; several business colleges and numerous societies for the advancement of art, music. literature and science, one daily morning paper, one daily evening paper, two weekly papers and several monthly trade publications.

As to amusements, the city has a first-class theatre and some three moving picture theatres. The lake adjoining the parliament buildings offers facilities for boating, bathing and skating. Many fraternal societies and other organizations exist, devoted to amateur theatricals, cards, debates, etc. The city is within easy distance of Last Mountain and Katenwa Lakes, two of the beauty spots of the province, and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina is one of the best paved cities in Canada for its size. having some 30 miles of paved streets, 75 miles of graded streets; 42 miles of granolithic and 72 miles of plank sidewalks. The city also has 68 miles of sewer with 5,103 connections; 72 miles of water mains with 510 hydrants and 5,923 house connections; 4 fire stations with some 36 firemen and a full equipment of the most modern fire fighting apparatus, some 257 acres of parks, a trunk sewer and sewage disposal works, and an incinerator plant for the disposal of garbage.

Regina's Municipal Buildings would do credit to a far larger city. The funds for their erection have been to a great extent provided by the sale of the townsite lands, yet the city still possesses an asset in its unsold property worth approximately \$3,016,000.

#### COMMITTEES OF COUNCIL

At its inaugural meeting the Council created in place of the former Standing Committees a Special Committee composed of all members of Council. Weekly Meetings are held by this Committee every Monday at 9 a.m. His Worship the Mayor is the Chairman and the Deputy Mayor for the time being is the Vice-Chairman. The Committee undertakes the duties and performs the functions of the former Standing Committees.

Certain Sub-Committees are appointed from time to time from amongst the members of the above Special Committee to perform such duties as may be assigned to them.

#### CIVIC OFFICIALS

Mayor—Dr. W. D. Cowan
Commissioner—L. A. Thornton
Solicitor—G. F. Blair
Clerk—G. Beach
Acting Engineer—J. R. Ellis
Medical Health Officer—M. R. Bow, M.D.
Auditors—MacIntosh & Hyde

Treasurer—John E. Snowball

Assessor—R. J. Westgate

Superintendent Street Railway-D. W. Houston

Police Magistrate—J. H. Heffernan Superintendent of Parks—E. Venzke

Superintendent Waterworks—J. M. McKay

Superintendent Light and Power-E. W. Bull

Chief Constable-M. J. Bruton

Chief of Fire Brigade-W. A. White

Chief Sanitary Inspector-J. A. Bertwistle

Building Inspector—O. T. Falls

License Inspector—S. Lyne

Storekeeper-A. Atkinson

Market Clerk and Weighmaster-James Williams

City Hall Janitor—A. Stewart

#### FIRE DEPARTMENT

The fire department is under the control of the City Council. It consists of one chief, one deputy chief and 36 paid members.

Chief-W. A. White

Central Fire Hall—Headquarters: 1825-1839 Hamilton Street, Phone 99. Equipped with all motor apparatus as follows: One Chief's Auto, one Motor Hose and Chemical, one Motor Chemical Engine, one Motor Pumping Engine and Hose Wagon, one Motor 75 foot Aerial Ladder Truck.

No. 2 Hall—Corner Scarth Street and Eighth Avenue, equipped with one Hose and Chemical Wagon, one 60 foot Ladder Truck.

No. 3 Hall—Corner Robinson Street and Fourteenth Avenue, equipped with one Hose and Chemical Wagon, one City Service Ladder Truck.

No 4 Hall—Corner Winnipeg Street and Victoria Avenue, equipped with one Hose Wagon, one Steam Fire Engine.

There are 510 fire hydrants in the city and 17 fire alarm stations.

There are 510 fire hydrants in the city and 47 fire alarm stations.

- 82-Montague Street and Sixteenth Avenue

#### POLICE DEPARTMENT

The police department is under the control of the Police Commissioners, consisting of the following:

His Worship the Mayor (Chairman)

I. H. Heffernan Judge Hannon

It consists of a Chief, Detective Inspector, two Detectives, two Sergeants, three Patrol Sergeants, twenty-two Constables, Police Court Clerk, Chief Constable's Clerk Interpreter, two Police Patrol Wagon Drivers and Police Matron.

Clerk of the Police Commission—George Beach

Police Magistrate-J. H. Heffernan Chief Constable—M. J. Bruton

#### STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars.

#### Details of System to December 31, 1915

Total Expended\$1,723,830.00
Mileage30
Gross Earnings
Number of Passengers Carried4,124,784
Car Mileage
Rolling Stock: 34 passenger and 30 freight cars; one motor

haulage car and two sweepers.

#### ELECTRIC LIGHT AND POWER PLANT

The electric light and power system is owned and operated by the city. This utility is not only self-sustaining, but revenue producing, showing a surplus of revenue over expenditure of \$19,248.99 in 1914.

The generating plant at old power house consists of four boilers. aggregating 1,000 H.P.

One 300 K.W. generator connected to Corliss engine. One 450 K.W. low pressure turbine generating unit. Two 400 K.W. direct current railway units, vertical engine type.

One 1,200 K.W. motor converter, converting from 2,200 volt three

phase to 600 volt direct current.

A new power house has been completed in which is installed the following additional apparatus: Two 1,500 K.W. high pressure turbine generating units; one 3,000 K.W. high pressure generating unit; and six boilers, 3,000 H.P. capacity.

Some 581 arc and 50 incandescent street lights are in use.

#### WATER WORKS SYSTEM

The water works system is owned and operated by the city. The supply of water is obtained from springs and artesian wells at Boggy Creek, about eight miles northeast of the city. A dam has been built there across the creek at an elevation of about fifty-five feet above the city, which impounds about one hundred million gallons of water. Forty-five wells have been sunk through the clay to the gravel bed, found at an average depth of one hundred feet. In addition to the above, pipe lines have been laid in the valley to collect and convey the

water to Barton Pump Well (capacity 270,000 gallons). Adjoining the pump well is located a pumping station in which two 80 h.p. gasoline engines and two belt-driven turbine pumps raise two million gallons per day into the circular reinforced concrete five million gallon reservoir on Tor Hill, which stand about one hundred and twenty feet above the city. The storage reservoir was designed by Mr. R. O. Wynne Roberts, consulting engineer, and is two hundred and two feet in diameter, depth of water being twenty-five feet. These different works are connected with the city by one-fifteenth-inch vitrified pipe line, ten-inch cast iron mains, and one-eighteenth-inch steel main. These trunk mains are capable of delivering by gravitation at the power house about four and one-quarter million gallons per day. It is proposed shortly to lay another twenty-seven inch steel trunk main between Tor Hill reservoir and the city, and this will deliver another five million gallons per day. This main will also serve to convey water from the watersheds adjacent to and twice the area of Boggy Creek, when the demand for an increased supply of water requires same. About half way between Tor Hill reservoir and the city there are two reservoirs having a combined capacity of 1,065,000 gallons. and at the city power house there are two more holding 650,000 gallons.

When the pressure is below standard the water when it reaches the power house, is pumped into the city mains by means of a new five million gallon steam-driven turbine pump and two horizontal direct action pumps and when installed the total capacity will be 8,600,000 gallons per day. The normal domestic pressure in the city is fifty pounds per square inch, whilst for fire purposes the pressure is increased to one hundred and twenty pounds. A system of trunk mains throughout the city, ranging from 27 inches to 10 inches in diameter was laid in 1913, which will adequately provide for any possible development for a number of years and afford complete fire protection in every part of the city. The greater part of this scheme has already been carried out and the balance of the work will be undertaken this year.

#### ASSESSMENT AND RATE OF TAXATION

Number of Hydrants	510
Number of House Connections	5,933

#### PARKS

In different parts of the city grounds have been laid out for cricket, football, baseball, lacrosse and tennis, while the city has about 257 acres for park and recreation purposes, valued at \$3,300,000. A splendid feature of the city is the children's playgrounds, located in different parts of the city.

Wascana Park—Containing about 45 acres and situated to the south of the city, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, affording excellent facilities for boating, of which full advantage is taken. There is a large boat club building and a boat livery in the park. There is also a bathing house, which is open for the use of the public.

This park, adjoining as it does the grounds of the Regina College, and having an outlook over the lake to the Parliament Buildings and grounds, offers excellent facilities for development as an ornamental

park.

Victoria Park—Which contains over seven acres, situated in the centre of the city, is laid out as an ornamental garden.

**Dominion Park**—Containing about eight acres, is devoted to athletic games. It is in the centre of the warehouse district and affords exceptional advantages to men employed in the district and to the athletic and sporting element of the public generally.

Alexandra Park—Is used as a children's playground and is equipped with suitable gymnastic apparatus.

PART III.

### Educational Information

#### PUBLIC SCHOOL BOARD

Offices: Alexandra School, Hamilton Street

Rev. James Smith, B.A., Field Secretary for College

### University of Saskatchewan

The University is situated on the east side of the south branch of the Saskatchewan river. Its site comprises 1,333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

A general plan of the campus, making ample provision for future growth, is being prepared. In the preparation of this plan advantage is being taken of the experience of state universities with problems similar to those of this University. In the erection of buildings it was thought wise to begin with a number of small buildings adequate to present needs, but capable of being adapted to special purposes without serious waste and at small cost when the growth of the University requires greater specialization in buildings.

The College building is about 220 feet long and 52 feet wide with wings of about 111 feet in length and 30 in width. At the rear is a large hall capable of scating between 500 and 600 people. This building will be used for teaching purposes in Arts and Agriculture. It is located in a position convenient to the Agricultural, Engineering, Horticultural and Dairy buildings, the Stock Pavilion and Farm buildings so that in time it may be devoted exclusively to the College of Agriculture. Near it are placed the residences for students.

#### Visitor

Hon, Richard S. Lake, Lieutenant Governor of Saskatchewan

#### Chancellor

Hon. Edward Dudlow Wetmore, LL.D.

#### President

Walter C. Murray, M.A., LL.D.

#### COLLEGE OF AGRICULTURE

The College of Agriculture is a part of the University and stands in the same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English, Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duties as good citizens.

The University estate consists of the campus, about 293 acres, and the College Farm, 1,040 acres. The College Farm proper consists of 880 acres.

#### Faculty of Agriculture

#### EMMANUEL COLLEGE

#### In Affiliation with the University of Saskatchewan

The College is governed by a Board, composed of Ex-Officio and Elected Members of the Synod of the Diocese of Saskatchewan. Its appointment is regulated by Canon, and the elected members retire by rotation. They control all matters affecting the welfare of the College, and report their proceedings to the Synod annually. The Educational Committee is made up of the Faculty, together with the Bishop and two clerical members of the Board of Governors.

The College provides: (1) a pass course leading to the Testamur; (2) a course leading to the Licentiate in Theology, and, (3) a course leading to the degree of Batchelor of Theology.

#### Officers, 1916

President—Dr. W. A. Thomson First Vice-President—G. Harman Jones Board Secretary—H. E. Sampson General Secretary—Wm. Corcoran Treasurer—T. E. Fletcher

#### YOUNG WOMEN'S CHRISTIAN ASSOCIATION

1950 Lorne

The Y.W.C.A. Building is situated on Lorne Street, facing Victoria Park. It contains reading room and library, club rooms, parlors, class rooms, cafeteria, association office and gymnasium, be-

sides sleeping accommodation for over 70 women.

Arrangements are being made for the establishment of a branch of the Y. W. C. A. in the warehouse area for the benefit of the employees in that district. Two lots have been given by the city for this purpose, and it is the intention to proceed with the erection, early in the spring, of a building costing, with furniture and equipment, some \$20,000.

## Hospitals and Homes

### REGINA GENERAL HOSPITAL

Regina General and Isolation Hospitals are under the control and management of a Board of Governors apppointed by the Corporation of which a majority are members of the Council. Board of Governors, 1916—R. H. Williams (Chairman), His Worship

Mayor Cowan (Vice-Chairman), Alderman McInnis, City Com-

missioner Thornton, F. N. Darke, H. W. Givins, Dr. Low

### Officials

Acting Superintendent-Dr. M. R. Bow Secretary-Treasurer—George E. Patterson Superintendent of Nurses—Miss Reekie Fees for Patients—\$1.50 to \$3.50 per day according to wards Number of beds—General Hospital, 100; Isolation Hospital, 25; new wing of General Hospital, 112, and new Isolation Hospital, 60

### Visiting Hours

Public Wards-From 2 to 4 p.m. and 7 to 8 p.m. on Tuesdays, Thursdays, Saturdays and Sundays.

Semi-Private—Daily 2 to 4 p.m. and 7 to 8 p.m. Private Wards—Daily from 10 a.m. to 9 p.m.

The new Isolation Hospital will be an excellent building provid-

ing every facility for the treatment of contagious diseases.

The south wing of the General Hospital was opened for patients on February 6, 1915. This wing provides on each floor (4) two large wards of twelve and sixteen beds with administration rooms between.

Many of the most modern features in hospital construction and furnishing are incorporated in this building, and its opening marks a

distinct advance in hospital accommodation in the West.

The Alexandra Ward for children is located in this wing. This large and beautifully arranged ward, and the playroom in connection, were entirely furnished and equipped by the Alexandra Club of Regina. 244812

### REGINA GREY NUNS' HOSPITAL

Dewdney corner Saskatchewan Avenue

This hospital is under the direction of the Grey Nuns, with Sister M. A. Perron as superintendent in charge. Phone 4932.

### THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.
